

Write a c programme to concatenate function strcat without using inbuilt function.

→ Flowchart

Algorithm

step1 : start

step2 : Input str1, str2

step3 : while (str1[i] != '\0')

i++

step4 : while (str2[j] != '\0')

str1[i] = str2[j]

j++

i++

step5 : str1[i] = '\0'

step6 : Display concatenated string is

o/p str1

step7 : stop
